3. Operacionalização da reversão da frota

1. Introdução

Nos termos da Deliberação CDTC-RMG nº 058, de 24/07/2007, os veículos da frota atualmente empregados na operação dos serviços inerentes ao SIT-RMTC constituem bens reversíveis, que deverão ser revertidos ao Poder Concedente e disponibilizados para as futuras concessionárias.

Os pagamentos aludidos no item 11.2 deste Edital prevêm que os valores ofertados pelas licitantes vencedoras, na forma das Propostas Técnicas apresentadas na licitação, abrangem a frota reversível mencionada no item 4.2.1 do Edital.

Considerando estas condições legais e contratuais pertinentes, este Anexo apresenta a relação dos veículos que serão transferidos às futuras concessionárias e demais orientações sobre o procedimento a ser adotado.

2. Relação de veículos a serem transferidos às Concessionárias

A CMTC transferirá, mediante o pagamento dos valores relacionados no item 11.3 deste Edital, um total de 1.306 ônibus para as futuras concessionárias de cada lote, conforme os totais relacionados na tabela a seguir.

3. Operacionalização da reversão da frota

Conforme determina a Deliberação CDTC-RMG nº 056, de 12/12/2006, re-ratificada pela Deliberação nº 060, de 27/11/2007, até o início da operação dos serviços pelas concessionárias que vierem a firmar os novos contratos de concessão permanecerá em vigor o atual contrato estabelecido com as concessionárias que hoje operam os serviços de transporte coletivo da RMTC, à exceção da empresa Metrobus, cuja delegação continuará em vigor até que seja procedido, em momento oportuno, a licitação para a concessão dos serviços da Linha Eixo Anhanguera.

Como decorrência, a frota revertida apenas será disponibilizada para uso pelas novas concessionárias no período noturno e na madrugada do dia estabelecido para o início de operação dos serviços, conforme os prazos propostos pelas concessionárias em suas Propostas Técnicas.

Em período a ser estabelecido de comum entre a CMTC e as futuras concessionárias, e que antecederá à data de início de operação dos serviços, serão realizadas, pelas partes, vistorias da frota revertida para verificação das plenas condições de funcionamento dos veículos. Na constatação de falhas que comprometam a sua utilização, excetuando-se aquelas normais e decorrentes do uso normal e idade dos veículos, caberá às atuais concessionárias, proprietárias dos veículos, sanar as falhas constatadas até a data de transferência dos veículos para as novas Concessionárias.

No caso da ocorrência de incidentes ou acidentes com perda total, ou baixa do veículo do Cadastro da CMTC por qualquer outro motivo, entre a data da avaliação referida acima e a sua entrega para as concessionárias, estes veículos serão obrigatoriamente substituídos pela operadora que detém a posse e o uso dos bens, por veículos equivalentes em modelo, idade e estado de conservação aos veículos indisponíveis, os quais serão vistoriados e selados pela CMTC em ato anterior às suas entregas para as concessionárias.

No ato de recebimento dos veículos será realizada vistoria final de caráter expedito por parte de técnicos designados pela CMTC, pelas atuais concessionárias e pelas futuras concessionárias, sendo lavrado, pelas partes, um registro de transferência dos veículos.

Caso, na vistoria de recebimento do veículo, seja constatada a existência de falhas, serão observados os seguintes procedimentos:

- Na hipótese de falhas que comprometam a circulação do veículo, não será dado recebimento do veículo, ficando a proprietária do veículo, encarregada de promover a sua correção em um prazo máximo de 5 (cinco) dias úteis, exceto se a falha for sanada no momento da vistoria;
- Na hipótese de falhas que não comprometam a circulação do veículo, será dado recebimento provisório do veículo, ficando a proprietária do veículo encarregada de

promover a sua correção em um prazo máximo de 5 (cinco) dias úteis, exceto se a falha for sanada no momento da vistoria.

Caberão às novas concessionárias as providências, nos prazos legais, do registro de transferência de propriedade do veículo. As multas de trânsito que tenham sido lavradas até o momento em que for realizada a transferência do veículo para operação pela nova concessionária, serão de responsabilidade da proprietária anterior do veículo.

Incumbem às novas concessionárias as adequações de padronização visual da frota em conformidade com o modelo definido pela CMTC. As novas concessionárias poderão operar os veículos nos primeiros dias com a identificação do nome da empresa e outros elementos de forma provisória.
